CARRIER OBJECTIVE

To be part of an organization where I am given the opportunity to learn, grow and work at a responsible position where I can find my career challenging which will enable me to use my skills & knowledge to become a successful professional and contribute towards the organizations goal.

PROJECTS

Social Media Planner | React.js/Node.js /MongoDB

A Social Media Planner is a digital tool or application designed to organize, schedule, and manage social media content across multiple platforms. It helps users plan posts in advance, maintain a consistent posting schedule, and track engagement. Key features often include content calendars, post scheduling, analytics tracking, and media management. This improves productivity, ensures brand consistency, and enhances audience engagement..
